Subject index

Allergy; Routine patch testing with the preservative system Kathon CG, 47
Skin contact allergy to emulsifiers, 99
Amine Oxides; Method for the determination of the carbon chain length composition of amine oxides, 257
Book Reviews;
Microbiological Quality Assurance in Pharmaceuticals,
Cosmetics and Toiletries. S. F. Bloomfield, R. Baird, R. E. Leak and R. Leech (Eds). Ellis Horwood, Chichester, 1988.
Adverse Reactions to Cosmetics. Anton C. de Groot, ICG, Dordrecht, 1988, 295
Cationic cellulose derivatives; The behaviour of cationic cellulose derivative containing fatty quat groups, 219
Chemical stability; Chemical stability and microbiological reply of preservative systems in cosmetics: a direct correlation, 231
Cutaneous ageing; Screening tests of free radicals scavengers for preventing sun-accelerated cutaneous ageing, 247
Dehydroacetic acid; Dehydroacetic acid (sodium salt) stability in cosmetic preservative mixtures, 29
DEPA Effectiveness of macrogol and talcum base formulations of a new insect repellent N,N0diethyl phenyl acetamide, 23
Dry Skin; Evolution of lipid composition in treated with blackcurrent seed oil, 149
Fibroblasts Protective effects of avocado and soya bean lipidic non-saponifiables on proliferation of fibroblasts cultured in altered conditions, 15
Fluorescein dye; Surfactant-induced fluorescence changes in fluorescein dye, 213
Free radicals; Screening tests of free radical scavengers for preventing sun-accelerated cutaneous ageing, 247
Hair; Percutaneous absorption of p-phenylene diamine during an actual hair dyeing procedure, 63
Hair care; Silicones: use of substantive properties on skin and hair, 75
Hedonics; Odours, emotion and psychophysiology, 171
Henna Henna as an antimicrobial agent, 131
Human exposure to perfumes; A calculated approach to perfume safety in consumer products, 1
Image analysis; Image analysis as a tool for measuring biological phenomena of the skin, 137
Insect repellent; Effectiveness of macrogol and talcum base formulations of a new insect repellent N,N-diethyl phenyl acetamide, 23
Keratin; Effects of topical treatment on pilar keratin synthesis in the rat, 111
Letter to the Editor, 145
Linear alkene benzene sulphonate; *In vitro* studies on the effect of linear alkene benzene sulphonate on serum albumin, 241
Lipid Protein Partitioning; Action of skin penetration enhancers—the Lipid Protein Partitioning theory, 281
Lipids; Evolution of lipid composition in skin treated with blackcurrent seed oil, 149
Medal Lecture—1988, 91
Methodology; Determination of sun protection factors. Correlation between *in vivo* human studies and an *in vitro* skin cast method, 117
Method for the determination of the carbon chain length composition of amine oxides, 257
Optical methods for measuring the pearlescent effect in toiletries, 161
Microemulsions; *In vitro* release of propanolol from oil/water microemulsions, 263
Nitromusks; Photoallergic potential in the guinea-pig, of the nitromusk perfume ingredients musk ambrette, musk moskene, musk xylene musk ketone and musk tibetene, 271
Non-saponifiables; Protective effects of avocado and soya bean lipidic non-saponifiables on proliferation of fibroblasts cultured in altered conditions, 15
Olfaction; Odours, emotion and psychophysiology, 171
Pearling agents; Optical methods for measuring the pearlescent effects in toiletries, 161
Perfumes; A calculated approach to perfume safety in consumer products, 1
Photoallergy; Photoallergic potential in the guinea-pig, of the nitromusk perfume ingredients musk ambrette, musk muskene, musk xylene musk ketone and musk tibetene, 271
Photostability; Photostability assessment of sunscreens. Benylidene camphor and dibenzoylmethane derivatives, 53
P-phenylene diamine; Percutaneous absorption of p-phenylene diamine during an actual hair dyeing procedure, 63
Preservatives; Chemical stability and microbiological reply of preservative systems in cosmetics: a direct correlation, 231
Dehydroacetic acid (sodium salt) stability in cosmetic preservative mixtures, 29
Henna as an antimicrobial agent, 131
Routine patch testing with preservative system Kathon CG, 47
Propanolol; *In vitro* release of propanolol from oil/water microemulsions, 263
Quaternary ammonium benzophenone derivatives; Substantivity of sunscreens—preparation and evaluation of some quaternary ammonium benzophenone derivatives, 99
Rubine dye test; The behaviour of cationic cellulose derivatives containing fatty quat groups, 219
Skin; Skin contact allergy to emulsifiers, 9
Skin care; Silicones: use of substantive properties on skin and hair, 75
Skin dry; Evolution of lipid composition on skin treated with blackcurrant seed oil, 149

Skin penetration; Action of skin penetration enhancers—the Lipid Protein Partitioning theory, 281
Skin Surface; Image analysis as a tool for measuring biological phenomena of the skin, 137
Stratum corneum; *In vivo* transepidermal water loss and skin surface hydration in assessment of moisturization and soap effects, 201
Sun protection factors; Determination of sun protection factors. Correlation between *in vivo* human studies and an *in vitro* skin cast method, 117
Sunscreens; Photostability assessment of sunscreens. Benzylidene camphor and dibenzoylmethane derivatives, 53
Substantivityof sunscreens—preparation and evaluation of some quaternary ammonium benzophene derivatives, 99
Surfactants; *In vitro* studies on the effect of linear alkyl benzene sulphonate on serum albumin, 241
Surfactant-induced fluorescence changes in fluorescence dye, 213
Toiletries; Optical method for measuring the pearlescent effect in toiletries, 161
Transepidermal water loss; *In vivo* transepidermal water loss and skin surface hydration in assessment of moisturization and soap effects, 201
Vegetable extracts; Effect of topical treatment on pilar keratin synthesis in the rat, 111
